

**Course Syllabus
Philosophy 3340
Biomedical Ethics
Fall 2015**

Course Description: Biomedical ethics is composed of two separate fields: bioethics and medical ethics. Bioethics is the study of the ethics of life (and death), and includes familiar topics such as abortion, cloning, stem cell research, allocation of scarce medical resources, and euthanasia. We shall spend approximately the first two-third of the course on these issues. For the last third of the course, we shall discuss topics in medical ethics, which is concerned with “micro” issues such as the moral underpinnings of doctor-patient relationships as well as “macro” issues such as the structures of medical institutions or the duties that societies have to provide health care for those in need. No previous coursework in philosophy is required for this course and fundamental concepts in moral philosophy (e.g., consequentialism and deontology) will be explained as they become relevant. This is a course on *theoretical* (as opposed to clinical) bioethics.

Professor: Dr. Fritz Allhoff

Text: All readings are available online at <http://www.wmich.edu/library/reserves/>. The first time that you visit that site, you must create an account and add this course to that account. The password is “ethics.”

Overview: This course will be conducted online and has various components; those components will be described in the rest of the syllabus. Each week, students will complete the below-listed reading assignments and then read lectures that have posted about them. Lectures will be posted on Monday and will remain visible for the rest of the course. (Students should do the readings first as the lectures will analyze and evaluate them.) Following the assimilation of the readings and lectures, students will take an online quiz. There will also be four writing assignments.

| | | |
|-----------------|-----------------------|-----|
| Grading: | Weekly Quizzes | 20% |
| | Writing Assignment #1 | 20% |
| | Writing Assignment #2 | 20% |
| | Writing Assignment #3 | 20% |
| | Writing Assignment #4 | 20% |

Weekly Quizzes: Every Monday at 1200a, a quiz will be released from the course website. For each student, 10 multiple choice questions will be randomly selected from a bank of questions that have been submitted. These quizzes should be taken without any study materials present, and 15 minutes will be available to complete them. The quizzes must be completed by Saturday at 1159p; after these times, they will no longer be available. Students should take the quiz after they have read the assigned readings and corresponding lectures.

Each student's lowest two quiz grades, including those for missed quizzes, will be dropped. For this reason, quizzes *will not be reopened for any reason*.

Quiz — and other module release times — cannot be changed or customized for individual students. The quiz drops are also meant to be accommodation for any scheduling issues that might arise, so please plan ahead.

Writing Assignments: The lecture schedule below indicates when the writing assignments are due. Assignments submitted up to 48 hours late will be penalized one letter grade (e.g., A to BA). Assignments submitted at any later time will be penalized two letter grades (e.g., A to B). (The last paper cannot be submitted late.) Extensions will not be offered, nor should they be requested.

Each writing assignment will be approximately 2,000 words, and the prompts will likely have several components. You are allowed to use your course notes as well as your course readings in the development of your answers. No other sources—including collaboration with others—should be incorporated into this assignment; the incorporation of any uncited sources will be considered plagiarism. Citations should be made to course readings as appropriate, with citations given to the author and original page of publication.

Note that you also have quizzes (on new material) the same weeks that you will be principally writing these assignments. This is one reason that they have been made available the week they are due; this way, you have a weekend to work on them, should you want to.

Technical Support: For any technical support pertaining to the course (including course readings), contact EUP by phone at (269) 387-2847 or by email at atis-support@wmich.edu. Neither the professor nor graduate assistant is able to provide technical support.

Email: All correspondence regarding this course will either be sent to WMU email accounts (from GoWMU) or else posted to the e-learning environment. Students are required to regularly check their WMU accounts, and all correspondence from them should be sent from those accounts (per university policy). Emails to the instructor or GA should be sent to them directly and not posted as mail through e-learning; this will ensure a faster response since e-learning mail has to be checked separately from university email.

Statement on Academic Honesty: You are responsible for making yourself aware of and understanding the policies and procedures in the Undergraduate Catalog that pertain to Academic Honesty (pp. 274-276). These policies include cheating, fabrication, falsification and forgery, multiple submission, plagiarism, complicity and computer misuse. If there is reason to believe you have been involved in academic dishonesty, you will be referred to the Office of Student Conduct. You will be given the opportunity to review the charge(s). If you believe you are not responsible, you will have the opportunity for a hearing. You should consult with me if you are uncertain about an issue of academic honesty prior to the submission of an assignment or test.

Lecture and Reading Schedule

| MODULE | TOPIC | READING | OPEN | CLOSE |
|--------|---|---|-------|-------|
| 1 | Introduction to Biomedical Ethics | | 9/7 | 9/12 |
| 2 | Abortion | Mary Anne Warren, "On the Moral and Legal Status of Abortion" | 9/14 | 9/19 |
| 3 | Abortion (cont.) | Judith Jarvis Thomson, "A Defense of Abortion" | 9/21 | 9/26 |
| 4 | Abortion (cont.) Writing Assignment #1 due 10/3 at 1159p | Don Marquis, "Why Abortion Is Immoral" | 9/28 | 10/3 |
| 5 | Stem Cells and Cloning | Leon Kass, "The Wisdom of Repugnance" | 10/5 | 10/10 |
| 6 | Cloning (cont.) | Gregory Pence, "Who's Afraid of Human Cloning?" Fritz Allhoff, "Telomeres and the Ethics of Human Cloning" | 10/12 | 10/17 |
